Course description:

This course will help you continue toward understanding and communicating with others while being introduced to the richness and diversity of the Spanish speaking world.

It will emphasize the development of communication skills in Spanish via a balanced approach to the four language skills: listening, speaking, reading, and writing. The vocabulary, grammar, and cultural readings will relate to cultural themes that are relevant to the Hispanic cultures.

The approach to learning will take students on a reflective journey, calling upon them to use their critical thinking skills and participate actively in the process of discovering the Spanish language and the cultural landscape of *El Mundo Hispano*. As they observe and infer, explore, and confirm, multiple layers of meaning are uncovered.

Course Rationale

The organizing principle of Intermediate Spanish is the concept of proficiency. The goal of proficiency-oriented language instruction is to develop students' "ability to function effectively in the language in real-life contexts."¹

The Proficiency Guidelines established by ACTFL (American Council on the Teaching of Foreign Languages) provide an outline of reasonable expectations of performance at four different levels of the language learning experience.

Course Goals (CG)

1. To develop comprehension strategies
 - a. To develop global comprehension by identifying the type of authentic written or oral script and verifying comprehension of a communicative situation (who is speaking? To whom? About what? Where? When does the situation occur? Why?)
 - b. To refine the comprehension of a script by accomplishing a task, identifying specific information, and understanding the structure of a text.
2. To develop acquisition of linguistic forms
 - a. To be guided to conceptualize meaning by inducing form from meaning, verifying one's hypothesis and one's acquisitions.
 - b. To develop a toolbox of terms and phrases for oral and written activities.
 - c. To practice communicative and linguistic acquisition through systematization exercises.
 - d. To perfect pronunciation through activities (listening, auditory discrimination, conceptualization, and reproduction) and to focus on intonation to develop auditory perception.
3. To develop oral and written expression
 - a. To transfer pragmatic, linguistic, and sociocultural outcomes to oral and written expression to verify that learning outcomes were met and to reflect on challenges met through production.
 - b. To produce authentic written tasks such as writing a post card, a letter, an email, an article, or a journal entry.
 - c. To produce authentic, imaginary, dramatic and creative oral tasks such as purchasing an item, reserving a seat at a production, and inviting someone to go out.
4. To develop intercultural competence
 - a. To exchange thoughts in groups based on personal experiences, thoughts, and beliefs about culture.
 - b. To interpret cultural traits and concepts by interacting, sharing own experiences and observations and to access information on Spanish society and Spanish speaking world.

Retake/Make-up Policy - There will be no retakes for quizzes, tests, and Exams.

-Web Homework: In the Web homework (VHL), you will find a list of assignments to be completed at vhlcentral.com. I encourage you to complete all Web Homework assignments while you learn the grammar. All assignments will have designated due dates. Late assignments will be accepted for 50% within the quarter they were assigned.

-The VISTAS Web Homework System (vhlcentral.com/): distributes on-line homework assignments with immediate feedback for the results of student work.

-VISTAS SUPERSITE Online Resources : vhlcentral Learning Center includes: an exciting interactive program designed to provide you with further practice in the four language skills. Students should make use of this new multimedia resource to better prepare themselves for class, and to acquire a better understanding of the Spanish language and culture.

-Chapter Tests: will be given at the conclusion of each chapter (1-6) and will incorporate a listening comprehension section, a reading section with a variety of cultural and authentic readings, a grammar, composition.

-Quizzes: quizzes on structure and vocabulary will be given to insure progress.

-Compositions: there will be two compositions(One per semester), they should be typed, double-spaced, using Times New Roman font, size 12, no handwritten drafts will be accepted. Please make sure you turn in your composition on the due date. No Late compositions allowed.

-Composition grading: Compositions will be graded on the clarity in the presentation of ideas, grammatical, spelling, and format features, as well as on actual content. All compositions need to be typed completely in Google Docs, from beginning to end, and submitted/shared on google docs.

NOTE: compositions must reflect the individual work of each student. No one should revise your composition before it is turned in to your professor. Any composition that seems to have been corrected by somebody else, prior to the due date, will receive a zero (0) as a grade.

Use of Internet translation is strictly prohibited. Any use of such sites for compositions, tests, exams, or other assignments will result in a zero (0) for that assignment. (Text generated from such sites is easy for instructors to spot, since it is generally full of syntactical errors, vocabulary that is different from what is used in the textbook, and verb tenses that have not yet been introduced.)

-Conversación con amigos:

The student and his/her partner will have a session of “conversación” with a Hispanic friend. You will create a video. A topic and a questionnaire will be given to the students to prepare. The conversation length of time will be 15 minutes. The professor will grade each student individually, based on their pronunciation, fluency, grammar, content, and vocabulary.

Movie/TV Project

Each student will pick an authentic Spanish movie or TV series to watch. They will write a composition about what they watch and include specific details about the movie/show. They will then create a presentation summary to share with the class.

Plan & Teach a Spanish 1 Lesson Project

In pairs, students will be given a topic from Spanish 1 to prepare a lesson. They will submit a lesson plan and then execute the lesson plan to current Spanish 1 students. They will then reflect on how it went and present to their classmates about their experience.

Academic Integrity

Academic dishonesty—in all forms—is a serious violation of academic integrity, Grace's & BCS's community standards for scholarship and behavior, and Christian morality. Academic dishonesty includes, but is not limited to, cheating, plagiarizing, falsifying or fabricating data, stealing or interfering with another student's work, and submitting substantial portions of the same work for more than one course without prior consent from the instructor. Violations of the Academic Integrity Policy will result in proportional consequences, which include but are not limited to, failure of the assignment, course grade reduction, and failure of the course, as stated in the course syllabus. See the complete Academic Integrity Policy found in the Academic Policies Manual for more details.

Universal Grading Scale (adopted by the School of Arts & Sciences and Grace Core, numerical values adopted by School of Ministry Studies)

100-93% = A	76-73% = C
92-90% = A-	72-70% = C-
89-87% = B+	69-67% = D+
86-83% = B	66-63% = D
82-80% = B-	62-60% = D-
79-77% = C+	59-0% = F

A – exceeds expectations and is superior work
B – meets all expectations and is good or very good work
C – meets most expectations and is average in nature
D – meets some expectations and is subpar in nature
F – does not meet most or any expectations

Determination of Grade

Chapter Tests	50%
Quizzes/Participation- vocab. & gram.	20%
Classwork, VHL	15%
Compositions /Projects /Conversaciones	15% (One Category, "Projects")

Email etiquette is important.

1. **E-mail is forever.** Once you send it off, you cannot get it back. Always be respectful.
2. **Subject lines are for subjects.** Please write a brief explanation of the nature of the e-mail (like "question about paper") in the subject line. Never include demands such as "urgent request—immediate response needed."

3. **Salutations matter.** "Dear Dr/Professor Howey" or "Hola Profesora Howey" (using my last name). It is not appropriate to address the professor by her first name, as 'señora', or using the familiar form of speaking (always make an effort to use the 'usted' form).
4. **Identify yourself and include the name of your class.** It will be easier for the professor to answer your question immediately.
5. **Always acknowledge.** Please let them know that you received the message or response.
6. **Signoffs and signatures count.** Always end by thanking the professor for her time and closing with "Best wishes" or "Regards" (or some other relatively formal, but friendly, closing)
7. **Please sign with your beautiful name!**
